CONDITIONS OF SALE.

Please read Sale Terms Before Bidding.

This is a bona-fide public sale, for prompt cash settlement, and irresponsible persons who are not sure whether they can pay for what they bid on, are asked not to bid. The cataloguer has taken special pains to describe each lot accurately. Errors will be corrected, but he reserves the sole right to decide upon any claims. No corrections or refunds will be made, and no lots can be returned, unless the bidder submits his case in writing within 30 days of the date of the sale.

Coins and medals are sold at so much per PIECE, and no lot will be separated. You cannot buy a few pieces out of a lot but must buy all of it. The auctioneer will accept no bid under 10 cents to start a lot where that lot contains only one piece; nor will he accept any advance under 5c on any lot containing but one piece; after the price has reached \$2. no advance under 10c will be accepted on any lot containing one piece; after \$5.00 the bid must advance 25c each time; after \$10 no bid under 50c.

Our rules regarding lots containing more than one piece will remain unchanged and the same as before.

Auction sales are strictly for cash. Parties unknown to me and bidding for the first time, must give bank or other reliable reference, or their bids will not be executed.

Forward your bids as early as possible, as thousands of bids have to be entered. Do not make ridiculously low bids, such as 10c. and 15c. on foreign silver coins worth several times over as bullion. Write your bids plainly, with a pen if practicable.

Where the number of pieces in a lot is not given after the description there is but one piece in the lot.

Be sure you bid on the lot you wish to buy. We cannot correct such errors.

All coins, etc., are genuine unless otherwise described.

A charge of 5% will be made to cover packing but where the parcel is bulky an additional packing charge will be made. No charge made for bidding except for lots actually purchased. Remit by money order or New York draft.

If any further information is required as to valuation of lots, or how to bid, please write the cataloguer, THOMAS L. ELDER.

Important Notice. We keep two books of the sale recording each lot as sold, and we will not accept any sale records from outsiders. Our records are final.

THE S. H. CHAPMAN COLLECTION

Part Two and Other Collections.

This, our last sale of the regular winter season of 1932, will be found to be one of our finest one day sales. There are many rarities,—a magnificent numismatic library on Ancient Coins, with some Rare Books on American Coins. The offerings are widely varied and will be of interest to all classes of collections. Attend the sale in person if possible.

New Bidders Must Read Our Sale Terms and Must Comply With those Terms.

We will not allow these new bidders to make their rules for our sales. This is no approval sale. The coins are actually sold and must be kept by the buyers and promptly paid for. If anyone has any other intention please do not bid at the sale. At each sale we have one or two collectors attempting to make our rules and to conduct our sales for us, through some mistaken ideas of their own. This we positively will not allow. We have been in the auction business for almost thirty years and are fully capable of managing our own affairs. Errors will be corrected but we reserve the right to decide on any claim presented.

The collections include a splendid lot of material sent us by Mrs. S. H. Chapman for actual sale, collected by the late Mr. S. H. Chapman, of Philadelphia, one of the veterans of numismatics in this country and one of our greatest experts. His consignment includes splendid U. S. UNETHICAL.

It is unfair to pick up customers in another mans place of business, or to hand his customers your business cards. Yet this is being done right along in our office. It costs a pile of money to pay high New York rents and it is out of order for those who come from a distance to barter, buy and sell in a competitors place of business. Some of our best dealers do not do this. The meanness of the practice should be brought to public notice. It is unfair and unethical.

A PLEA FOR HISTORICAL COLLECTING.

The cataloguer gets a little bit tired at times seeing how little fine cultural coins and medals are appreciated by some collectors. If we are not careful America will go into a huddle over dates and die-cracks. It is painful to receive a catalogue for a sale and find nothing in it but straight American stuff. Such a catalog is always uninteresting from an esthetic point. There is little of educational value in a straight line of dollars, half dollars and even cents. These things are all right to collect in their way, but the exclusion of all coins of an esthetic, historical or really antique nature suggests that some of us lack a proper appreciation of real values. There are so many finely executed coins, ancient, mediaeval and early modern which cost comparatively small prices that it is indeed remarkable that so many of our collectors will overlook them or pass them by for small U. S. Cents. Five Cent Pieces, or cracks in the dies of a monotonous lot of dates which practically all look alike and have little or no variation in general type. What is the country coming to if this is what so many collectors want? It is painful to see finely educated collectors wasting their days and hours poring over unimportant details of straight line U. S. coins, while interesting old silver coins from 100 to 200 years old, of the finest workmanship go begging and sell for a song. It is no credit to us and collectors should commence to realize it. Dr. Kunz once referred to the taste as "prostitution of intellect."
